Summary

Biography

Senior Associate Teacher in Human Geography.

My thesis focuses on the blue economy, exploring sovereignty over emerging resource frontiers in the context of marine mineral mining in Namibia. This research is funded by the Lancaster Environment Centre.

Fieldwork: Namibia (2016,17,18) and South Africa (2017)

Alongside my thesis, I am undertaking research into how conventional paradigms of resource nationalism are challenged by the case of Kosovo via its position as a disputed territory. Fieldwork: Kosovo (2016,17) and Serbia (2017)

Research Appointments

Visiting PhD Researcher, UC Berkeley, CA, hosted by Prof. Nancy Peluso (2018)
Visiting Scholar, University of Namibia (2017)

Outside of my academic work, I consult on environmental, social and governance concerns in mineral supply chains.

Publications

Refereed Journal Articles

Carver, R. (2019), Resource sovereignty and accumulation in the blue economy: The case of seabed mining in Namibia. *Journal of Political Ecology*, 26.

Other Publications
