Summary

Ed has a general interest in all aspects of naturally occurring gastrointestinal disease in dogs, with specific interests in the mucosal immune response to food and pathogens. His research has covered gluten-sensitive enteropathy in Irish setters, antibiotic-responsive diarrhoea and idiopathic inflammatory bowel disease.

Biography

Teaches

BVSc Veterinary Science

BSc Veterinary Nursing & Bioveterinary Science.

Keywords

- Canine
- Intestine
- Mucosal Immunology

Skills

- Gluten-sensitive enteropathy Antibiotic responsive diarrhoea Inflammatory bowel disease

Processes and functions

- Clinical investigation of naturally occurring intestinal diseases
